Great news! O'Reilly has been kind enough to let me distribute my eBook Unobtrusive Ajax to readers of my blog, so now you can download and read it for free!. Download "Unobtrusive Ajax" eBook. From the book's cover: Unobtrusive Ajax is about making web applications that work for everyone all the time, even if you have JavaScript turned off, or you're using a mobile phone or a screen reader ...

Free eBook: Unobtrusive Ajax - The Future of the Web

I found the problem. ITextSharp did not like the horizontal-line tags that i have in my asp.net page. I removed those horizontal-line tags and the tool ran fine but the output captured into the PDF file with missing info -- the image was modified by the user by adding some check mark and those check marks were not shown in the PDF file

Asp.net Export WebPage with Images to PDF using iTextSharp

If you specify dimensions on the <embed> element directly, you will lose the ability to resize the element via CSS, because the inline styles will always take precedence over the other styles in your file. Therefore it is recommended that you specify dimensions using external CSS rules, as shown here. Note: PDFObject automatically appends the class pdfobject to the <embed> element, and ...

PDFObject: A JavaScript utility for embedding PDFs

In my previous articles I explained clearly how to export gridview data to excel or word and how to export gridview data to CSV file.Now I will explain how to export gridview data to PDF using asp.net. In asp.net we don't have direct feature to export gridview data to PDF for that reason here I am using third party library ITextSharp reference. The dll is available here ITextSharp first ...

Doka, A JavaScript Image Editor for your Website

with the suggestion that the preceding statement be terminated with a semicolon. Some suggest instead the use of leading semicolons on lines starting with '(' or '[', so the line is not accidentally joined with the previous one.This is known as a defensive semicolon, and is particularly recommended, because code may otherwise become ambiguous when it is rearranged.

Geb is a developer focused tool for automating the interaction between web browsers and web content. It uses the dynamic language features of Groovy to provide a powerful content definition DSL (for modelling content for reuse) and key concepts from jQuery to provide a powerful content inspection and traversal API (for finding and interacting with content).

The Book Of Geb

This attribute is extremely useful in cases where generated files are in use -- the file name on the server side needs to be incredibly unique, but the download attribute allows the file name to be meaningful to user. The download attribute is one of those enhancements that isn't incredibly sexy but is a practical and easy to add.

HTML5 download Attribute - JavaScript Consultant

In my previous post, I explained about making AJAX calls to a servlet from a JSP page and updating a part of the JSP page with the response from the Servlet. Now in this post I am going to add something more to it by making the servlet return complex Java Objects such as lists, maps, etc.

Rotating Banner for SharePoint using jQuery - SharePoint Diary

Update: I've announced react-pacomo, a solution for some of the problems with CSS outlined here, without the downsides of Inline Style. So one of the hottest topics in the React world lately is Inline Style, i.e. setting styles with an element's style property instead of CSS.. This new and shiny way of doing things promises to make your life easier.

Why You Shouldn't Style React Components With JavaScript
