WebbIE. The WebbIE software programs are programs that make it easier for blind and visually-impaired people, especially using screen readers, to browse the web, get the latest news, listen to podcasts and radio stations and other common tasks.

WebbIE, software for blind people with little or no sight.

Get more time in your day by having your email read to you on the move. Voice commands and simple gestures designed to be safe to use while driving give you the ability to archive, flag or even reply on the move. Smart content detection skips over disclaimers, reply headers, and email signatures to speak only the content without the clutter.

Speaking Email - "read my emails" - Email done. On the

A speaking clock or talking clock is a live or recorded human voice service, usually accessed by telephone, that gives the correct time. The first telephone speaking clock service was introduced in France, in association with the Paris Observatory, on 14 February 1933. The format of the service is similar to that of radio time signal services. At set intervals (e.g. ten seconds) a voice ...
