

WHAT CATS SHOULD EAT HOW TO KEEP YOUR CAT HEALTHY WITH GOOD FOOD

what cats should eat pdf

The cat (*Felis catus*) is a small carnivorous mammal. It is the only domesticated species in the family Felidae and often referred to as the domestic cat to distinguish it from wild members of the family. The cat is either a house cat, kept as a pet, or a feral cat, freely ranging and avoiding human contact. A house cat is valued by humans for companionship and for its ability to hunt rodents.

Cat - Wikipedia

A feral cat is a freely ranging wild-living domestic cat (*Felis catus*) that avoids human contact: it does not allow itself to be handled or touched, and usually remains hidden from humans. Some feral cats may become more comfortable with people who regularly feed them, but even with long-term attempts at socialization they usually remain fearful. ...
